10 Family Photo Ideas *That Feel Natural*

Pick two favourites to try at home or at your next session.

START WITH A LITTLE MOVEMENT

01 **Walk and talk**
Take the same little stroll you'd take without a camera.

02 **Let the kids choose the route**
Ask them to show you what's around the next bend.

03 **Play one round of I Spy**
Pick something nearby and let everyone guess.

04 **Give them a tiny job**
Ask them to find a leaf to show someone they love.

05 **Bring out the bubbles**
Let one person blow bubbles while everyone else tries to catch them.

Get a little closer.

Try one of these when everyone’s ready to slow down.

MAKE ROOM FOR QUIETER MOMENTS

06 **Tell the family story**
Ask someone to retell the story everyone knows by heart.

07 **Read one page**
Bring a book you already read together.

08 **Notice the little things**
Photograph hands held, muddy shoes or a well-loved toy.

09 **Make room for your dog**
Let them settle beside the person they usually look for.

10 **Get in the frame too**
Set a timer or ask someone else to take the photo while you join in.
